P77 Reading--- Ordering a Gift Online

Ordering a Gift Online

Nowadays, shopping online becomes more and more popular. We can buy almost any product at a low price without leaving home.

Last week, I went to one of the major search engines—Baidu to buy a gift for my aunt. After I keyed “ordering a handbag” in the search box, many websites appeared. I found a nice handbag in the first website. But the picture was so simple that I couldn’t get more information about it. It’s really hard to make a decision and I had to give up.

At last, I chose TAobao website. Different kinds of handbags came into my sight. Among the pictures, I found my favorite style. And the website showed the details of the handbag, such as color, price, payment and so on. After comparison, I selected a black leather one. I was very interested in its way of payment—Alipay. It is considered as one of the most secure ways. So I went to the page to create my Alipay account. Only a few minutes later, I finished the payment. Soon, the e-shop owner checked my aunt’s address with AliWangwang and said he would send off the handbag as soon as possible.

It’s amazing! The gift was delivered to my aunt two days later.
